Methodology

NACE STANDARDS

The Cohen Career Center adheres to standards set by the National Association of Colleges and Employers (NACE) first destination survey guidelines. In addition to standard questions, regarding post-graduation plans (e.g., employment data, graduate school data), the survey collects internship data, next destination alignment with personal career goals, and primary university career influencers.

DATA COLLECTION

The online survey is distributed to William & Mary seniors graduating in August, January, or May of the current academic year. The survey is sent initially in February; then, it is sent monthly to non-respondents and re-sent to those who indicate their status as ‘job seeking’ or ‘pursuing graduate school.’

Other primary sources of data retrieval are the National Student Clearinghouse, initiatives with campus partners, and data mining via social media. Data collection closes each December following May graduation. All forms of data collection follow NACE protocols.

KNOWLEDGE RATE

Our knowledge rate is the percent of graduates for which William & Mary Cohen Career Center has reasonable and verifiable information concerning graduates’ post-graduation career outcomes. Information is retrieved directly from students/recent alumni, employers, campus partners, social media, and the National Student Clearinghouse. The Cohen Career Center’s goal is the highest rate possible; the national average is 65.6% according to NACE’s *First Destination for the College Class of 2019: Findings and Analysis*, published February 2021. Outcomes are reported on conferred graduates. Information is shared in aggregate and published annually in the *Next Destination Survey Report* and the *Career Success Report*.

Results

Experiential Learning: Most Meaningful

Experiential learning engages students beyond the classroom to apply knowledge and develop skills and values that enable them to connect their academic pursuits meaningfully with their personal and professional lives.

Experiential learning happens in a range of settings, across the university, including:

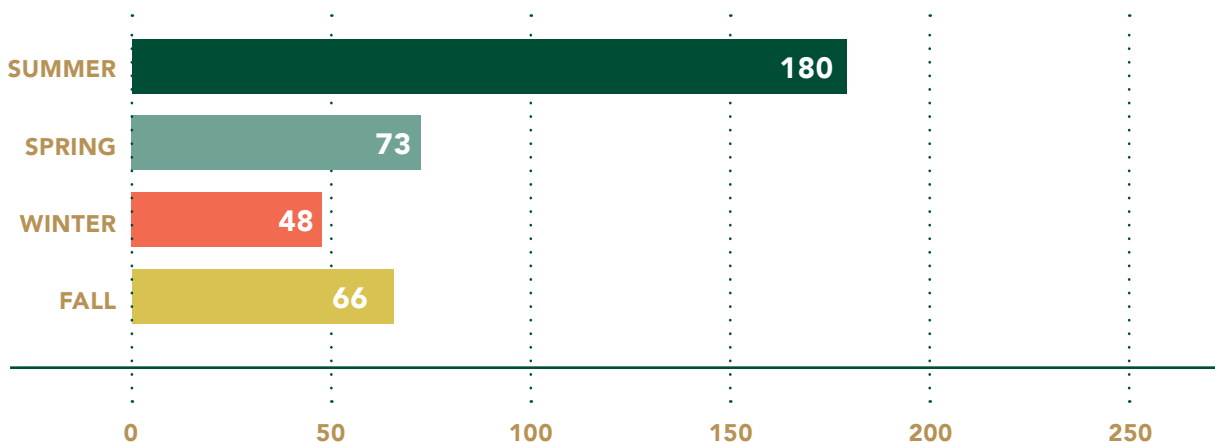

- Internships/Field Work
- Study Abroad/Study Away
- Arts/Performance
- Mentored Research
- Service Learning
