# Methodology

#### NACE STANDARDS

The Office of Career Development & Professional Engagement adheres to standards for first destination survey guidelines set by the National Association of Colleges and Employers (NACE). In addition to standard questions regarding post-graduation plans (e.g., employment data, graduate/professional school data), the survey collects applied learning data, next destination alignment with career goals, and primary university career influencers.

#### DATA COLLECTION

The online survey is distributed to William & Mary seniors graduating in August, January, or May of the current academic year. The survey is sent initially in February; then, it is sent monthly to non-respondents and re-sent to those who indicate their status as 'job seeking' or 'applying to graduate/ professional school.'

Other primary sources of data retrieval are the National Student Clearinghouse, initiatives with campus partners, and data mining via social media. Data collection closes each December following May graduation. All forms of data collection follow NACE protocols.

#### **KNOWLEDGE RATE**

Our knowledge rate is the percent of graduates for which the William & Mary Office of Career Development & Professional Engagement has reasonable and verifiable information concerning graduates' postgraduation career outcomes. Information is retrieved directly from students/recent alumni, employers, campus partners, social media, and the National Student Clearinghouse. The Office of Career **Development & Professional Engagement's** goal is the highest rate possible; the national average for Bachelor degrees is 58% according to NACE's First Destinations Dashboard for the Class of 2020, published in 2021. Outcomes are reported on conferred graduates. Information is shared in aggregate and published annually in the Next Destination Survey Report and the Career Success Report.
