

RESEARCH @ WILLIAM & MARY:

Research is an integral part of the William & Mary community & we are here to assist.

Welcome to William & Mary! We look forward to meeting you, working with you, and learning about your research interests.

We hope your experience here will be vibrant, creative, and productive. We strive to provide excellent support services to faculty, to increase the funding available for research, and to protect W&M's interests by assuring compliance with all relevant laws and regulations.

The Vice Provost for Research has oversight of all research related matters. Several W&M offices provide administrative support for faculty and students engaged in research and scholarship. These offices do everything from helping you find and secure funding, to navigating research compliance regulations, to helping you patent and market your ideas. Check out our contact information below. Find the sponsored programs administrator assigned to your department on the OSP website under "about/contact" or ask your departmental administrator. Subscribe to funding opportunity emails and updates by sending a request to wosp@wm.edu and asking to be subscribed to the "Research PI" listserv. Feel free to contact us for assistance, or just to introduce yourself!
