3. Other Proposals

JAPN - 301A, 301B	Upper Intermediate Japanese I-A/I-B	Course Change
JAPN - 312	Crossing Borders: Japan, Travel, and the World	Course Change
MUSC - 209	Experimental Sound Workshop	New Course
RELG - 308-01	Buddhist Contemplative Traditions	New Course

Discussion:

JAPN - 301A, 301B: the combination of proposed course order and instructor permission makes it difficult to manage the course. Ben Boone will follow up with the instructor to find a solution.

JAPN - 312: This course has COLL200 and COLL300 and they are applying for COLL350. Instructor is considering to drop COLL300 attribute to earn the COLL350. Discussion: The current version of the course is not a COLL300, but could fulfill COL350. The course could carry all three attributes but the syllabus would need to reflect that. Currently, we can't tell which version is being offered and if this course would be a COLL300 again then the material from the "old" syllabus would have to be incorporated again. Ben Boone will follow up with the instructor.

MUSC - 209: Instructor modifies this topics course proposal to non-repeatable. Course passes unanimously after EPC vote.

RELG - 308-01: Questions about course topics, repeatability, and ALV attribute. ALV is requested just for this one topic of the course. After brief discussion and vote the course passes unanimously.

4. Old Business: No old business to discuss

5. New Business: No new business to discuss
