- Curriculum Change for Africana Studies was tabled so the department could consider Laura’s feedback on course numbers.
- BIOL 100: The faculty member teaching this course will be a new faculty member in the fall. It was clarified that having faculty members hold off on teaching COLL courses until their second semester is a recommendation, not a requirement. For this course, the faculty member has a mentor and the course was approved by the COLL 100/150 subcommittee. Approved.
- International Relations. No discussion. Approved.
