### Hanging Back

I'm not really engaged, and I'd rather not talk about the election season.

I need to process my feelings around the election, but I'm not sure where to start. I'd like support managing self-care.

### Processing

### Learn & Dialogue

I want to know more about the election process or policy issues. I'd like to engage with others in conversation.

I'm excited to speak out, use my voice, and engage more. I'd like to speak thoughtfully with others who think differently than me.

### Express My Voice

### Civic Action

I want to be involved in the citizenry of the world and actively engaged in civic life. I'm a leader looking for connections and resources.
