Join the W&M Bray School Lab each month in a new series on Zoom: Bray School Stories: Finding the Bray School Students. Led by Elizabeth Drembus of the W&M Bray School Lab, these sessions are a blend of research and exploration, aiming to shed light on the past and connect it to the present through descendant-centered genealogical research.

In March, Elizabeth will focus on the search for Bray School scholars Mary & Elisha -- and elucidate the process of engaging in genealogical work at the same time.
